

## Laser Mayhem Corporate Events

The Laser-Mayhem Events Team consists primarily of Ex-Military personnel who have kit bags full of experience in delivering the right message for client hospitality, team building, promotional events and employee motivation, get together or simply a treat.

We understand that the key to any event's success lies in getting a clear understanding of your objectives, so the right solution and tone can be delivered on the day. You can choose from our dedicated range of corporate development games or brief us to create a bespoke event to suit your specific objectives.

Using the expertise of our Laser-Mayhem Events Team, clients engage in missions of varying complexity from simple capture the flag games through to bigger VIP operations. Before each game, teams will be briefed and have the opportunity to formulate a plan. The importance of working to deadlines is introduced as timings take on a more significant role in the time frame of the games, it is no longer the survival of the fittest but the survival of the cleverest, with each member of the team displaying their individual strengths for the greater glory of the team.
